## DYNAmore Nordic Newsletter

### Issue 32 - Sep 7, 2017

---

Dear Reader

---

### Nordic LS-DYNA Information Day - October 10, 2017

DYNAmore Nordic welcomes you to our LS-DYNA Nordic Information Day, October 10 2017. We will be in the theatre at Quality Hotel 11 in Gothenburg.

In the evening before, on the 9th, we will arrange a get-together with some drinks and snacks at our DYNAmore Nordic office in Gothenburg, Bror Nilssons gata 16. [Show on map](#)

The conference is free of charge, and you register [here](#). **Deadline for registration is September 26**  
A preliminary agenda is available, and you find it [here](#)

Welcome to a day of interesting presentations and discussions about state-of-art simulation using LS-DYNA!

---

### PYDIO

PYDIO is our new file sharing platform which provides a safe sharing environment and a possibility to structure software versions and license files as desired.  
Instead of sending license or software files via FTP servers DYNAmore Nordic will provide all customer's system administrators with logon credentials to PYDIO: <https://project.dynamore.se/>.

If you haven't received your login, please contact: Elizabeth Mäki Björklund at email: [elizabeth.maki.bjorklund@dynamore.se](mailto:elizabeth.maki.bjorklund@dynamore.se)

### New Release - LS-DYNA R10.0 and R9.2

Recently, the new version LS-DYNA R10.0 and R9.2 was released which includes many new features and improvements. The version is particularly suitable for users of the implicit structural solver and the new coupled multiphysics modules. For our users from crash and occupant simulations, we still recommend the robust production version LS-DYNA R7.1.3 for everyday use

You find the release notes and latest executables at <https://project.dynamore.se/>. To get a PYDIO account see above.

### New Release - BETA 18.0.0 and 17.1.2

BETA CAE Systems announces the release of the new ANSA/EPILYSIS/META suite v17.1.2 and v 18.0.0, with the new v18.0.0 of its software suite. Beyond the groundbreaking enhancements to ANSA, EPILYSIS and META, the new product, KOMVOS-SDM Console, is now integrated to the BETA suite. The new version 18.0.0 of ANSA adds value to the multi-disciplinary concept of our pre-processor, introducing a broad range of new features and enhancements to existing ones, reinforcing overall process consistency, accelerating user performance, and providing a considerable increase in productivity
