

## Dear Newsletter Reader

We are pleased to share our latest news and recent information about LS-DYNA and our services at [DYNAmore Nordic](https://www.dynamore.se).

## Our News

### Seminar - Human Body Models and Injury Prediction, May 24-25, register now

Whether you're already working with HBMs or just contemplating to implement HBMs into your simulations, don't miss out this 2-day seminar in [Human Body Models and Injury Prediction](#). You will benefit from [Karin Brolin](#) and her expertise in the area. We will talk models, positioning, bio mechanics, validation of model and more. Join either online, or if you prefer, join us onsite at our office in Gothenburg where Karin and our Gothenburg colleagues will greet you. The event takes place **May 24-25** and is arranged by Lightness by Design and DYNAmore Nordic.

### Upcoming Seminars

May 24-25 [Human Body Models and Injury Prediction – Dynamore Nordic AB](#)  
 May 30-June 1 [Introduction to LS-DYNA – Dynamore Nordic AB](#)  
 May 30-31 [NVH & Frequency Domain Analysis in LS-DYNA - ONLINE SEMINAR – Dynamore Nordic AB](#)

### Oasys Suite 20.0 released

The release of Oasys Suite 20.0, the latest version of the comprehensive LS-DYNA PRE and POST processing software, was recently announced. More information can be found [a here](#)

### Research Project DigiTain

DYNAmore is part of DigiTain (Digitalization for Sustainability). The research project investigates the fully digital product development of sustainable electric drive architectures. More information can be found [a here](#).

### European LS-DYNA Conference

We are very pleased to present a European LS-DYNA Conference again in 2023. The conference will take place in Baden-Baden, Germany, on **October 18 and 19**. The call for papers is already open. All information about the conference can be found [here](#). The event is hosted by DYNAmore GmbH.

### Automotive & Aerospace Applications

If you were unfortunate and missed the actual event, you can find most of the presentations [here](#) for your perusal.
