

## Dear Newsletter Reader

We are pleased to share our latest news and recent information about LS-DYNA and our services at [DYNAmore Nordic](#).

## Our News

### Nordic Innovation Conference, Göteborg

- This year we will combine our Nordic LS-DYNA Users' Conference with ANSYS 2024 Nordic Innovation Conference. The event is packed with industry-leading speakers, a top plenary and industry-focused sessions, and a dedicated Ansys LS-DYNA track.

Join us to uncover what's possible through simulation.

- Hear from leading industry speakers showcasing their use of Ansys simulation.
- Gain insight into Ansys' simulation strategy covering Sustainability, AI/ML, Digital Engineering and more.
- Join one of our key industry tracks including Automotive, A&D and High Tech and Industrial Equipment or attend the dedicated Ansys LS-DYNA track for insightful customer stories.
- Share experiences, knowledge, and best practices with industry peers.
- Discuss your simulation challenges with Ansys experts.
- Participate and engage in interactive networking opportunities.

The 2024 Nordic Innovation Conference aims to celebrate engineering achievements that illuminate what's possible through the use of simulation. Discover the tools to optimize processes faster, with greater efficiency. And be inspired to design, build, and work in new ways that make your breakthrough ideas reality. Read more and register to the event [here](#).

### Seminars

You may register for this autumn's seminar already now.

### OASYS

The latest release of Oasys Suite is available to [download](#). For more information, see the Documentation tab. Technical manuals are also available at the new [Oasys software help portal](#).

A JT™ Reader has been introduced into Oasys PRIMER 21.0. This is licensed separately in the license file – to use this feature, please [contact us](#) for an updated license file. One JT™ Reader license is provided free for each Oasys customer – further can be purchased from Oasys as required.

### German Innovation Conference including LS-DYNA Forum

October 16 the one-day German Innovation Conference takes place in the Filderhalle in Leinfelden near Stuttgart. The event is packed with industry-leading speakers, a top plenary and industry-focused sessions, and dedicated Ansys LS-DYNA track. The event is free of charge.

### The Holiday Season is here

June is here. June is the brightest month and marks the official start of the summer. We wish all our customers, suppliers, and partners a relaxing and refreshing summer. Our Support will be open during the entire summer. You can reach us as usual by email ([support@dynamore.se](mailto:support@dynamore.se)) and phone.

### See you at Ansys

During the course of the year, the DYNAmore Infomail will be merged into an Ansys newsletter. In order not to encounter any data protection hurdles, we ask you to [allow Ansys to send you e-mails](#). This will ensure that you continue to receive information about LS-DYNA activities. Please select your preferences after you have confirmed your e-mail address. After merging the newsletters, we will make it possible for you to explicitly select the LS-DYNA product. We hope this will enable a smooth transition.
