

Dear Newsletter Reader

We are pleased to share our latest news and recent information about LS-DYNA and our services at [DYNAmore Nordic](#).

Our News

Pictures from our office in Göteborg

You've heard about it, but you may not have seen it - our new office in Göteborg - where we on a daily basis integrate and exchange knowledge with our colleagues from Ansys Sweden. The office has been newly refurbished and holds a nice kitchen, office space, conference and meeting rooms.

Trainings in Göteborg have been held at these premises since the end of last year.

We look forward to welcoming you to visit us at :

DYNAmore Nordic and Ansys Sweden, Anders Personsgatan 14, 416 64 Göteborg.

Release - R15

LS-DYNA R15.0.0 has been released. All binaries are available for download at files.dynamore.se. The new release requires an updated license file, which we will supply at your annual renewal. If you want to run LS-DYNA R15 earlier, please [contact us](#). Please note that LS-DYNA R15 is a short-term support version. This means that further releases of LS-DYNA R15 are not expected. For most production simulations we recommend a long-term support version, e.g. R12.2.1 or R14.1.0.

Ansys Learning Hub - ALH

Starting this spring DYNAmore will be hosting extended versions of our LS-DYNA training webinars on Ansys Learning Hub! Topics ranging from modelling of metals and plastics, simulation of composites, paperboard, electromagnetics, batteries, and more. If you don't have access to Ansys Learning Hub today, contact your Ansys or DYNAmore sales representative.

Seminars, Spring 2024

Find seminars for spring 2024 updated on our [website](#). Some examples below.

[Introduction to LS-DYNA](#), April 23-25, Linköping
