

Nordic LS-DYNA Users' Conference

October 18-19, 2022

Gothenburg

Call for Papers

Invitation

It is a pleasure to invite you to the Nordic LS-DYNA Users' Conference 2022.

On October 18-19, LS-DYNA users from the Nordic countries, the Baltic states and the rest of Europe will meet at Svenska Mässan in Gothenburg.

The conference will provide a great opportunity to share and discuss experiences, to obtain information on upcoming features in LS-DYNA and LS-OPT, and to learn more about new application areas.

The central part of the event will be the user presentations. You are very welcome to contribute with a presentation on the software and its usage. This is the ideal forum to discuss your experiences with LS-DYNA and LS-OPT with other expert users in simulations of complex mechanical problems.

Besides presentations from users, there will be also selected keynote lectures of renowned speakers from industry and universities as well as developer presentations from ANSYS/LST and DYNAmore GmbH. The popular workshops on various topics will also be continued.

We are looking forward to welcoming you either as presenter, exhibitor, or attendee.

Presentations

We are expecting user presentations from all LS-DYNA and LS-OPT applications. We would appreciate your input from the following application areas:

- Crash
- Occupant safety, airbag, dummy
- Metalfforming cutting
- Optimization, robustness analysis
- Spotweld bonding technologies
- Implicit applications
- Pedestrian safety
- Impact drop tests
- Plastics
- Composites
- Ballistics and penetration
- Material failure
- Fluid structure interaction, CFD
- Earthquake safety
- Containment analysis
- CAE process integration

Abstract Submission

Please send us your abstract, approx 150-250 words simply by clicking *Submit an Abstract*. **Deadline for submission:** June 15. **Language:** English. The presentation slot is 20 minutes and additional time is given for questions and change of speakers. The presentation is given on your affiliations presentation template.
